STATE-OF-THE-ART LUXURY YACHTS

SUPERYACHT BUILDING IS OUR **PRIVILEGE**

Through advanced engineering and construction techniques, the Privilege Yachts yard has the capacity to produce an 85-metre yacht in 24 months, a 130-metre yacht in 30 months, and a 200-metre yacht in 48 months.

The yard utilises an assembly system of block construction and can produce up to 70 steel sections in less than one year. Thus, the hull and superstructure of a 200-metre yacht can be completed in just 12 months, with the systems installation, piping, fairing, paint and interior fit out being completed in the remaining 24 months.
