

MACHINERY AND EQUIPMENT FOR THE PRODUCTION OF FURNITURE
No arrangement with creditors. 2/2013
PRODUCT LIST LOT NO 1

Inventory n.	Product Description
230	N. 1 Station for coloring and drying tunnel in steel plate painted with structure measures mt. 23 x 9 X H.3 brand GIARDINA
230/A	N. 1 Spray booth Maca GIARDINA mt.4 dry with two groups fume extraction cyclone, with a grid floor coll. and Func.
230/B	N. 1 Spray booth Maca GIARDINA mt.5 water film with two groups fume extraction cyclone and water circulation pump, equipped with a grid floor connected and working
230/C	N. 1 Spray booth Maca GIARDINA mt.5 water film with two groups fume extraction cyclone and water circulation pump, equipped with a grid floor connected and working
230/A	N. 1 Battery fume extraction floor mt.3
230/E	N. 1 air heater and the placing of hot air for drying and drying coll. and Func.
230 /G	No Series of Pressure blowing and suction piping to fit the fitting and operation of all plants contained in the tunnel, algi existing plants.
230 / H	Electrical cabinet to control all equipment contained in the tunnel.
231	N. 1 station for coating and drying steel sheet painted with backbone tunnel Brand GIARDINA mt.18 x H x 3.85 mt. 3.
231 / A	N. 1 Paint booth Dry brand GIARDINA mt. 3.60, complete with a group of suction cyclone and grilled floor, coll. and Func.
231 / B	N. 1 Paint booth Dry brand GIARDINA mt. 5, complete with two groups of cyclone extraction and grilled floor, coll. and Func.
231 / C	N. 1 Battery hot air generator for drying and drying of painted surfaces connected to the input vents in the tunnel and running.
231 / A	No Series of Pressure blowing and suction piping to fit the fitting and operation of all plants contained in the tunnel to the existing plants.
232	N. 1 for dry Cabins in correspondence with side locks to PVC transparent curtain, dim. m.3, 60x105 +200, with suction units and filters with coffered shakers, featuring grilled and fell to the floor with a supply station with suction sockets for power, FM 220 volts, and compressed air.
232 / A	N. 1 for dry Cabins in correspondence with side locks to PVC transparent curtain, dim. m.3, 60x105 +200, with suction units and filters with coffered shakers, featuring grilled and fell to the floor with a supply station with suction sockets for power, FM 220 volts, and compressed air.
232 / B	N. 1 for dry Cabins in correspondence with side locks to PVC transparent curtain, dim. m.3, 60x105 +200, with suction units and filters with coffered shakers, featuring grilled and fell to the floor with a supply station with suction sockets for power, FM 220 volts, and compressed air.

PRODUCT LIST LOT NO 1

Inventory n.	Product Description
232 / C	N. 1 for dry Cabins in correspondence with side locks to PVC transparent curtain, dim. m.3, 60x105 +200, with suction units and filters with coffered shakers, featuring grilled and fell to the floor with a supply station with suction sockets for power, FM 220 volts, and compressed air.
233	N. 1 station for coating and drying steel sheet painted with backbone tunnel Brand GIARDINA mis. East mt.20 x 10 x H. mt. 3.
233 / A	N. 1 Spray booth Maca GIARDINA mt.5 water film with two groups fume extraction cyclone and water circulation pump, equipped with a grid floor connected and working
233 / B	N. 1 Battery fume extraction floor mt.3 connected to the air intake and exhaust fumes from paint.
233 / C	N.ml.9 vents with smoke suction cyclone vacuum cleaner connected to the air intake and exhaust fumes from paint.
233 / A	N. 1 Battery hot air generator for drying and drying of painted surfaces connected to MI. 30 vents entry and running.
233 / F	N. 1 Spray booth Maca GIARDINA mt.5 water film with two groups fume extraction cyclone and water circulation pump, equipped with a grid floor connected and working
233 / G	N. 1 electrical cabinet to control all equipment contained in the tunnel.
234	N. 1 Station drying tunnel in painted sheet steel support structure with brand GIARDINA Mt measures 14 x 5 x H.3
234 / A	N. 1 Battery hot air generator for drying and drying of painted surfaces connected to MI. 20 vents entry, working.
234 / B	N.ml.5 vents with smoke suction cyclone vacuum cleaner connected to the air intake and exhaust fumes from paint.
234 / C	No Series of Pressure blowing and suction piping to fit the fitting and operation of all plants contained in the tunnel, algi existing plants.
234 / A	N. 1 electrical cabinet to control all equipment contained in the tunnel and 234 booths 235 and 236
235	N. 1 Paint booth Dry brand GIARDINA mt. 5, complete with two groups of cyclone extraction and grilled floor, coll. and Func.
236	N. 1 Paint booth Dry brand GIARDINA mt. 5, complete with two groups of cyclone extraction and grilled floor, coll. and Func.
237	N. 6 Benches aspirants from sanding cm. 300 x 105 x H. 160 with raised floor and sucked with decreased supply station with suction sockets for power, FM 220 volts, and compressed air.
238	Battery N. 1 ball for powder brand GIARDINA 7 stages dim. Mt 7 x 2 three inputs diam. mm.50 with shakers tires. drawers and dust recovery
