Attention:

Accessories of this tank to be mounted strictly to manufacturer's specification. This tank can only be assembled with the valves mentioned in the above table A.
 Mounting the tank under the vehicle is permitted only with use of anti-corrosive cover.

The tank has undergone design and pressure test at the manufacturer's premises with positive result. The tank has been acknowledged for use, stamped with quality control seal on the name plate.

The complete technical documentation will be retained by the manufacturer for the period of 10 years from the production date.

The manufacturer warrants the product for the period of 18 months from sales date, however, not longer than 24 months from production date. The guarantee for the anti-corrosive protection of the interior of tanks not fitted in the vehicles is 6 months from the date of sale. The warranty does not cover any defects by the user or by improper installation.

The warranty does not cover civil liability of the manufacturer.
